

What happened after the brothers publicly admonished the sectarians?

The German translation of this article can be found on the siblings' [website](#).

[Chris Gardener](#) first warned publicly in his group "[Grace and the Bible. The Word Of Truth Rightly Divided](#)" against the brethren, calling them "false witnesses." However, he had to realize that everything the brethren revealed could be both witnessed and substantiated. As a result, he first closed many of his public contributions, and finally closed his own chronicle to the public.

[Ines Roth](#) wrote a public warning in her above-mentioned group, apparently without having inquired beforehand that the siblings could both substantiate and testify to every single statement they made about the cult. Shortly thereafter, their group was made "invisible" to the public, i.e., set to "private." - The public, on the other hand, can meanwhile find on the siblings' website [the evidence that Ines Roth is guilty of the very offenses - and several others](#) - that she accuses others of. Her blasphemy, incitement/slander against Christians, and sectarian contributions are available for everyone to see. - What makes us particularly sad in her case is that she only began actively spreading hyper-heresies in about early 2021. Before that, she linked videos by [Robert Breaker](#), who [warns](#) precisely against the false teachings of hyperdispensationalism.

[Abraham Seed](#) does not seem to care about the Brethren's admonition. On his chronicle there is still permanent propaganda for the false teachings. Apparently, his followers are mostly English speakers.

[Brat Kiko](#) deactivated his account after "his" cult group was exposed. He has been admonished publicly and privately by several brethren regarding his false teachings. We pray for him that he will find room to repent, which after all he has so far refused to do in his false teachings.

Prayers are also offered for [Gifty Müller](#) and her family, that she and her husband may keep their children away from the [evil teachings](#) of the sect.

With respect to [Rico Kolodzey](#), we will spare further comment, because [on the sibling's site](#) you will find enough information about this false teacher.

The other sectarians of the "Twelve Troop" are mostly connected with English-speaking sect propaganda sites and people.

Brothers and sisters from all over the world are warning about the Hyperdisp / MAD system because it is an absolutely satanic perversion of the truth. The many false tenets of this system [were refuted long ago](#). - On the sibling's [website](#) you will find enough material that warns and enlightens about the false and blasphemous teachings of the Hyperdisp sect.
